Chapter 8: Retirement Benefits

You’ve been preparing children for their futures while we’ve been building your retirement security. Whether you are retiring soon or years from now, we can help with your retirement planning.

Retirement annuity

Your retirement benefit will be provided for your lifetime.

Eligibility

To be eligible for a TRS retirement annuity, the Illinois Pension Code requires you to terminate active service as a teacher. It is not permissible to prearrange post-retirement employment. To meet federal guidelines, TRS requires a genuine resignation and that the employment relationship be severed prior to the commencement of benefits.

To establish termination of service, two conditions must be met. First, you must formally resign from your teaching position. Second, you must wait 30 calendar days from the date of resignation before performing any post-retirement teaching for the same employer. The 30 calendar day wait period does not apply if the post-retirement teaching is for another employer.

Designations such as “temporary,” “interim,” and “independent contractor” will not suffice to establish termination of active service if the continued employment is with the same employer.

An annuitant who has established termination of service may not return to post-retirement teaching in the same school year he or she last contributed to TRS.

Once pension eligibility is established, retiring members must comply with post-retirement employment limitations (see Chapter 11: “Post-retirement Matters”).

In addition to terminating service, you must meet one of the following age and service credit requirements:

<table>
<thead>
<tr>
<th>Years of Service</th>
<th>Age</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>62</td>

<tr>
<td>10</td>
<td>60</td>
</tr>
<tr>
<td>20</td>
<td>55</td>
</tr>
<tr>
<td>35</td>
<td>55*</td>
</tr>
</tbody>
</table>

* If you are eligible to receive a retirement annuity of at least 74.6 percent of the final average salary and will reach age 55 between July 1 and Dec. 31, we consider you to have attained age 55 on the preceding June 1.

* If you are a TRS member currently employed by a state of Illinois agency, you may retire under the Rule of 85 if you meet eligibility criteria. Contact TRS to see if you qualify.

Under federal law, inactive members are required to take a TRS distribution at age 70½.

Annuity calculation

To determine your annuity, we use either an actuarial annuity calculation or an average salary/service credit calculation, whichever results in a higher benefit. The actuarial calculation is based on interest and mortality rate factors, which are subject to change. The average salary/service credit calculation (whose terms are defined in this section) yields a larger retirement annuity for most members with current or recent service; the maximum retirement benefit is 75 percent of the average salary. There is no limit on the actuarial annuity benefit.

The actuarial benefit has been eliminated for teachers who became members on or after July 1, 2005, as a result of Public Act 94-0004. For most TRS members, the 2.2 formula calculation results in a larger benefit than the actuarial calculation. The actuarial calculation usually benefits members with exceptionally long careers or long periods of inactive status.

Average salary is the average of the four highest consecutive annual salary rates within the last 10 years of creditable service. If you have less than a full year during your final year of teaching, we use a special procedure to calculate average salary.

Each annual salary rate after June 30, 1979, cannot exceed the previous year’s full-time rate by more than 20 percent. Any earnings above this limit are excluded. The 20 percent cap on salary increases applies only to service you performed for the same employer. Consolidation of school districts does not constitute a new employer; therefore, the 20 percent cap still applies.

Years of creditable service determine the percentage of the average salary to which you are entitled. If you do not upgrade service to the 2.2 formula, you are entitled to the following formula for service credit earned prior to July 1, 1998:

- 1.67 percent for each of the first 10 years
- 1.9 percent for each of the second 10 years
- 2.1 percent for each of the third 10 years
- 2.3 percent for each year over 30 years

For post-June 1998 service, you receive 2.2 percent for each year of service.

A special provision applies to members who had at least 24 years of service credit as of July 1, 1998. If you
do not upgrade to the 2.2 formula and you had at least 24 years of service prior to July 1998, you will receive 2.2 percent for each year of service earned after June 1998 up to 30 years and then 2.3 percent for each year of service over 30 years.

**Maximum retirement benefit**
If you are qualified to receive a benefit of at least 74.6 percent of final average salary, we will round this percentage up to the 75 percent maximum retirement benefit. If all of your service credit is with TRS, you will receive the maximum benefit with 34 years of service credit if you are eligible for a non-discounted annuity.

**Discounted retirement annuity**
If you retire between the ages of 55 and 60 with at least 20 but fewer than 35 years of service, your retirement annuity is reduced by 6 percent for each year (half percent per month) that you are under age 60. A discounted annuity is based on your average salary, years of service, and age.

**2.2 upgrades**
You may upgrade all of your pre-July 1998 service to the 2.2 formula by making an additional contribution. The contribution is equal to 1 percent multiplied by your highest salary rate in the four consecutive school years immediately prior to, but not including, the school year in which you apply for the upgrade times the number of years of creditable service you earned prior to July 1, 1998, or up to 20, whichever is less. For information about receiving a refund or reduction of your 2.2 upgrade cost, see “Refunds or reduction of the 2.2 upgrade cost” in this chapter.

**Reversionary annuity**
When you retire, you will receive a standard annuity from TRS unless you elect to receive a reversionary annuity. The standard annuity provides the largest amount payable throughout your lifetime. A reversionary annuity reduces the retirement annuity amount to provide an additional monthly annuity to a surviving, designated dependent beneficiary after your death.

**Single-sum retirement benefit**

If you have fewer than five years of creditable service, you are eligible to receive a single-sum retirement benefit at age 65. The benefit is the actuarial equivalent of a retirement annuity consisting of 1.67 percent of your final average salary for each year of creditable service. To be eligible for this benefit, you must terminate TRS-covered employment and complete an application for a single-sum retirement annuity.

Once you receive the single-sum benefit, you may teach in a TRS-covered position without restriction and you will not be required to make contributions.

**Refunds or reduction of the 2.2 upgrade cost**

You may receive a refund with interest or a reduction of your 2.2 upgrade cost:

- For every three years you teach and earn regular service credit after July 1, 1998, the equivalent of one year of your 2.2 upgrade cost will be reduced or refunded with interest.

If you retire with more than 34 years of service credit, you may receive:

- a 25 percent reduction in upgrade costs for each year of creditable service beyond 34 years, up to a maximum of 100 percent. Partial years are prorated.

**Refund of survivor benefit contributions**

**Eligibility**

When you apply for a retirement annuity or while you are receiving a retirement annuity, you may take a refund of your survivor benefit contributions if you have creditable service after July 24, 1959, and you do not have a dependent beneficiary (see “Types of beneficiaries” in Chapter 14).

The refundable amount is 1 percent of total gross creditable earnings for each year of teaching service after July 24, 1959.

**Effect of receiving a refund**

When you receive a refund of your survivor benefit contributions, you waive all rights to your beneficiaries’ receiving survivor benefits. However, your remaining accumulated retirement contributions, if any, still remain payable to your beneficiaries upon your death. The survivor benefit refund may be repaid with interest if you return to teaching and earn one year of creditable service.

**Application procedure**

When you are applying for retirement or at anytime thereafter, you may request a Refund of Survivor Benefit Contributions Application form from us. However, the form will not be sent until the processing of your retirement is complete. Return your completed form to our Springfield office. Within six weeks after we receive your completed application, we will process your refund and will forward it to the Office of the Comptroller for payment.

**Impact on Social Security**

If you qualify to receive a single-sum retirement benefit or take a refund from TRS instead of a monthly benefit, you may wish to ask if your Social Security benefits will be reduced. For Social Security information, you may call (800) 772-1213 or visit [www.socialsecurity.gov](http://www.socialsecurity.gov) online.
